HISTORICAL AND STATUTORY NOTES

1997 Main Volume

The 1987 amendment, in the Chapter 33 heading, the subchapter A heading and the section heading, substituted "responsibility" for "negligence"; and rewrote the section, which previously read:

"(a) In an action to recover damages for negligence resulting in death or injury to a person or property, contributory negligence does not bar recovery if the contributory negligence is not greater than the negligence of the person or persons against whom recovery is sought.

"(b) Damages allowed are diminished in proportion to the amount of negligence attributed to the person recovering."

Manual Assessment

For the reasons stated below, @Fault did not compute a fault assessment. Therefore, you will need to do so. Please answer the question below.

What is the percentage of fault for both parties?

Insured 5403

Claimant 5405

Manual Assessment reason(s)

This combination of impact points requires a manual assessment. When possible, using impact points 812 and 806 for front and rear impacts, 803 and 809 for side impacts and 801, 811, 805, and 807 for angled impacts. 5407
